## Product discontinuation of DURAG bar graph display D-ZS 129

Dear valued customer,

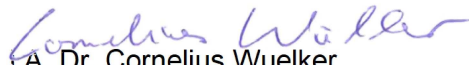

For 27 years we have been marketing our bar graph display D-ZS 129 as accessory of our flame monitors. Thank you for having chosen the D-ZS 129 in your company.

Herein we like to inform you that we have to discontinue the production of the D-ZS 129 with immediate effect due to the obsolescence of several critical components. Repairs are only possible if none of the obsolete components is defect.

If you need a bar graph display as a replacement for one of your projects with us, we will be happy to use one of the available technically equivalent displays in the project.

For further information or if you have any questions please do not hesitate to contact us. The staff of our local sales offices will be pleased to advise you.

Best regards,

i.A. Dr. Cornelius Wuelker  
Product Management DURAG GmbH
